

PRETTY & PRACTICAL

Home accents that are both aesthetically pleasing and functional.

A long soak in the tub is a treasured delight at the end of a long work week — one that shouldn't be marred by forgetting to grab bath essentials beforehand. The spa-like master bathroom in Empire's Shabby Chic model is chock-full of accessories that are as functional as they are aesthetically pleasing: a wooden stool doubles up as a perch for bath towels, while a small woven basket tucked beside the tub keeps essentials like soaps, shampoos and loofahs close at hand.
